

Are you looking to distinguish yourself as a leading pelvic floor practitioner? Beyond Basics is Hiring! We offer extensive training, continuous mentorship, and a competitive salary!

Beyond Basics has been a leader in pelvic floor rehabilitation for 22 years. We believe our practice is perfect for the kind of practitioner who is constantly striving to elevate their practice. We primarily see pelvic floor conditions; however, in treating these conditions we weave in neurological and orthopedic rehab principles into our approach.

Our 60 minute one on one treatment model is unique in the industry and allows you as the practitioner to treat your patient holistically and thoughtfully.

As a practice, we value education and offer a formal, structured, 1:1 mentorship program for all new hires, grand rounds, weekly office wide trainings, guest speakers, and a generous continuing education stipend.

If you have the desire to further your professional skills, work in a supportive team environment, and spend quality time with your patients, Beyond Basics may just be your perfect fit!

We are looking for someone with...

- Minimum 1 year experience in orthopedic physical therapy and manual therapy. Pelvic floor experience preferred. On the job training also offered.
- Physical Therapist license for the state of New York.
- Experience with and the ability to manage patients with a complex medical history.
- Excellent communication skills and the ability to effectively communicate with our healthcare team.
- The desire to continue a high level of post-graduate education with a goal of working towards certification in pelvic health.

We provide...

- Great salary up to \$120,000, depending on experience, performance bonus, and preferred benefits package.
- Hands on mentoring program (training program for new employees, including weekly in-services and PT training sessions)
- Generous continuing education package
- Time to complete documentation
- Health and dental insurance
- 401k retirement plan

Responsibilities:

- Conduct thorough assessments of patients' pelvic floor conditions and develop individualized treatment plans.
- Provide hands-on physical therapy techniques.
- Educate patients and their families on care plans and discharge planning to ensure continuity of care.
- Maintain accurate medical records and documentation in compliance with healthcare regulations.
- Collaborate with multidisciplinary teams.
- Utilize effective communication skills to foster patient relationships and enhance treatment outcomes.

Job Types: Full-time, Part-time, Per diem

Benefits:

- 401(k)
- Continuing education credits
- Dental insurance
- Flexible schedule
- Health insurance
- Paid time off
