WE'RE NOT HIRING A RESUME. WE'RE INVITING A MINDSET.

EHS is looking for a physical therapist who's passionate about delivering quality care and craves collaboration. You know there's more to this field than churning through patients. We know that too—and **we built something different.**

MANY CLINICS SAY THEY VALUE MENTORSHIP—WE BUILT OUR MODEL AROUND IT.

You step into your private treatment room for a focused, one-hour session—time to diagnose the root cause and treat the whole person, delivering transformative care with each visit. After, at a clinical in-service, cases are shared, ideas flow, and support is real.

Later, a senior therapist helps you refine your clinical reasoning, manual techniques, and neuromuscular intervention selection—instantly elevating your skills. Within a month, **your clinical reasoning is sharper, your confidence stronger, and your growth undeniable.**

A CULTURE THAT ELEVATES YOU

Time to Think and Treat

- Private treatment rooms and one-on-one, hour-long sessions
- Motivated patient population with a wide range of orthopedic and neurological conditions

Mentorship that Fuels Growth

- Hands-on training with expert clinicians who are recognized leaders in the field
- Weekly in-services and case discussions
- Support for advanced certifications

Collaboration That Delivers

- Partner with our Pilates and personal trainers to provide comprehensive care
- Opportunities to collaborate with local physicians and health professionals for fully integrated care

Benefits that Back You

- Competitive pay, PTO, CEU allowance, health benefits, retirement plan with company matching, gym membership
- Stipend toward student loan repayment
- Flexible schedules for balance

Curious? Let's talk. Send resume to **Brad Gilden: bgilden@elitehealthservices.com.**
