

Functional Physical Therapy is hiring a pelvic health physical therapist!

Functional Physical Therapy in Rockville, MD, provides highly specialized, one-on-one care for people struggling with pelvic health and chronic conditions. We are seeking a compassionate, motivated Physical Therapist who values a whole-body approach and wants to make a meaningful impact in patients' lives. Learn more about our clinic at [www.funcphystherapy.com](http://www.funcphystherapy.com)

Our clinic specializes in pelvic health and Functional Manual Therapy®, focusing on identifying and treating the root cause of symptoms rather than simply managing them. We prioritize individualized care, hour-long treatment sessions, advanced hands-on treatment techniques, and collaborative problem-solving for complex cases.

The ideal candidate has experience or strong interest in:

- Pelvic health physical therapy
- Orthopedic and manual therapy treatment
- Whole-body movement assessment and treatment
- Functional Manual Therapy® principles/training (preferred)
- Treating pregnancy/postpartum and chronic pain populations

Qualifications:

- Licensed Physical Therapist in Maryland (or eligible)
- Pelvic health coursework completed (Herman & Wallace PF1 and PF2 or equivalent preferred)
- Functional Manual Therapy® training or interest in pursuing advanced manual therapy training strongly preferred
- Strong communication skills and desire to provide highly individualized care
- New graduates welcome if passionate about pelvic health and manual therapy

What makes us different:

- One-on-one care only — no aides or double booking
- Hour-long treatment sessions
- Collaborative and supportive mentorship environment
- Focus on clinical reasoning, hands-on treatment, and root-cause resolution
- Opportunities for growth and continuing education

If you are passionate about pelvic health, hands-on care, and helping patients achieve goals they never thought possible, we would love to hear from you.

Please send your resume and cover letter to [ptinfo@funcphystherapy.com](mailto:ptinfo@funcphystherapy.com)
