

Kinect Physical Therapy in Monterey, CA is seeking a passionate Physical Therapist ready to join our innovative, holistic practice. We're looking for a part-time therapist (15-20 hours/week) with potential for full-time growth.

About Us: We are a PT owned, cash-based practice dedicated to excellence in patient care, offering extended one-on-one sessions (85-minute evaluations, 55-minute follow-ups). Our team includes fellowship and residency trained therapists with FAAOMPT, FFMT, and CFMT certifications, Barral Institute training, University of St Augustine Manual Therapy Certification, APTA pelvic health, and Postural Restoration Institute training, ready to support your skills development through mentorship.

#### What Sets us Apart:

- Patient-focused care model (6-8 patients daily)
- Extended one-on-one treatment sessions
- Cash-based practice - minimal documentation burden
- Strong emphasis on manual therapy and holistic treatment
- Regular mentorship opportunities (weekly to monthly) to support your professional development
- Supportive, low-stress environment
- Focus on continuous learning and professional development
- Flexible scheduling to meet your lifestyle

#### Your Role:

- Provide comprehensive physical therapy care to diverse adult orthopedic population
- Participate in regular mentorship training
- Collaborate with experienced therapists
- Engage in continuous learning and skill development
- Think creatively and implement innovative treatment approaches

#### Requirements:

- DPT or MPT degree
- California PT license or eligible for CA license
- Minimum 2 years experience
- Strong manual therapy skills
- Commitment to ongoing education
- Enthusiasm for holistic, patient-centered care

Ideal Candidate:

- Passionate about functional manual therapy
- Eager to learn and grow professionally
- Excellence in patient care and communication
- Values holistic treatment approaches
- Embraces innovative thinking

How can we help you?

- Specialized training in Airway, craniocervical and TMJ with autonomic function
- Specialized training in Pelvic health
- Specialized training in Visceral treatment

Join us in redefining physical therapy through exceptional, patient-centered care in a supportive, growth-oriented environment.
