

Part Time Physical Therapist with Full Time Potential

THE ROLE

Here is a simple question to ask. Why did you choose a career in Physical Therapy? I'd guess there's lots of reasons. Here at Prep Physio Therapy we fully understand exactly why you opted for this profession.

Here at Prep Physio Therapy we know you got into Physical therapy because you wanted to be able to give hands on **Manual therapy** and get people moving to help change people's lives for the better. Perhaps it's about getting people back to playing with their grandchildren, out on the golf course every weekend, or back on the sports field?

Are you looking to get back to giving real care to your clients, working in an environment that supports and nurtures your growth, and where every day you leave feeling fulfilled like you made a difference?

We keep patients at the heart of everything we do, delivering an outstanding service to every individual that comes through our door, with one outcome: to get them back to doing what they love most.

That's where you come in as a Physical Therapist.

And we want you to become a part of our team in helping deliver that around Long Island!

We are a single location clinic and pride ourselves on being able to give each and every person who comes through our door specialist, hands-on treatment, with an allocated slot solely for them to work through the issues they are facing.

Perhaps in your current role you may be feeling like we used to while working in other conventional Physical Therapy Clinics. It felt like a clinical conveyor belt of people coming through the door and straight out again. You have no time to really practice some of the skills you learned in school or continuing education courses because you are managing too many patients at the same time. You started performing what seemed like the same treatment programs for all your client's, making every day feel like Groundhog's Day, all the while trying to stay on top of your treatment notes so you can get home at a reasonable hour.

Here, we build friendships and long-term connections with people that last a lifetime rather than 10 minutes. We also allow the opportunity for you to continue to learn and progress your skills as a clinician with clinical mentorship, versus just managing a busy schedule.

WHO WE ARE

Prep Physio Therapy is a growing Physical Therapy Clinic that has experienced rapid growth in the last three years. Our exceptional customer, patient centered approach and unique treatment style has helped the practice to grow quickly. We are now in demand for a Physical Therapist to come in and help serve our patients.

The founder of this company is a former collegiate and professional sports Physical Therapist who started this practice on the side while receiving Fellowship Training in Manual Therapy, eventually growing it into a full-time clinic over the last three years. He believed there was a better way of delivering Physical Therapy care other than what the conventional, large Physical Therapy Groups practice model allows for. He wanted to build a unique place where clients become friends and stay with us for more than just the care. Also, a place where you can grow as a clinician and actually have the time to use skills that have been developed throughout your career.

WHAT WE DO

As a company we pride ourselves on delivering exceptional patient care, as well as giving our Physical Therapists plenty of opportunities and openings to develop their clinical skills and further their career.

“We want to give every physical therapist the opportunity to be the best therapist they can be”

WHAT YOU’LL GET FROM US

We’re extremely passionate about building a world-class culture and developing our team both personally and professionally. Your personal development will be at the forefront of what we do, with a commitment to weekly continuous professional development meetings. You will also get clinical mentorship as well as co treatments with difficult client cases.

We also offer flexible working arrangements that work for both you AND the business!

WHAT WE NEED

We are looking for someone who enjoys life, loves people and has a fun and positive team spirit, as character is everything to us. Skills can always be taught, but personality cannot. If you’re fresh out of Physical Therapy School, maybe feel undervalued in a large Physical

Therapy Group Practice or are looking for a new opportunity, then we can't wait to hear from you!

This is a full-time or part time position available with a competitive salary based on experience.

If you're reading this and thinking "this job is for me!" then what's the hold up? Let's talk!
