

IPA's Vardan clinic is seeking a full time Master Clinician in their New Delhi, India headquarter location. This position is for a certified and experienced CFMT.

#### ABOUT VARDAN

Vardan, a welfare initiative from the Times Group, brings a unique and effective treatment system that focuses on the optimum performance of the human body by enhancing total body mobility, Core First™ postural and movement strategies. Designed for the service of humanity and the stakeholders of BCCL i.e. employees, advertisers, readers, and other business associates, Vardan strives to promote health and healing in communities.

Vardan's technical partners Vicky and Gregory Johnson pioneered Functional Manual Therapy™ (FMT) and are the founders of The Institute of Physical Art (IPA). Their combined clinical experience of 75 years and innovative treatment techniques bring a unique and effective approach to healing, recovery and total body mobility. The system is designed to give people a new lease of life and help them regain optimal efficiency. The dedication and ongoing efforts of our partners to develop innovative therapy techniques and solve complex musculoskeletal as well as neuromuscular dysfunctions are evidenced by the thousands of patients who have benefited from their care.
